Cameron J. Stekelenburg

Hoboken, NJ • (201) 273-8078 • cameronstekelenburg@gmail.com • linkedin.com/in/cameron-stekelenburg/

EDUCATION

2025-2026 **STEVENS INSTITUTE OF TECHNOLOGY** Hoboken, NJ
Master of Mechanical Engineering; Focus in Robotics

2021-2025 **STEVENS INSTITUTE OF TECHNOLOGY** Hoboken, NJ
Bachelor of Engineering, Major in Mechanical Engineer; Minors in Chemical Engineering

- *Summa Cum Laude with Honors*; Cumulative GPA: 3.8; Dean's List (2021, 2022, 2023, 2024, 2025)
- Founding Member of Stevens Esports iRacing & C2GS Member

EXPERIENCE

May – Aug 2025 **KULITE SEMICONDUCTOR PRODUCTS** Leonia, NJ
Engineering Intern, Research and Development

- Led numerous technical projects focused on transducer design and evaluating various sources of signal interference
- Developed and outlined testing procedure to best identify interference in future product testing
- Delegated tasks to interns and represented the company at an industry conference

May – Aug 2024 **ALAN BAIRD INDUSTRIES** Allendale, NJ
Engineering Team Intern

- Assisted in design and manufacture of Semi-Autonomous machines for assembling medical devices
- Daily work in machine shop on a variety of manufacturing platforms such as automated 3-axis CNC
- Collaborated with multiple departments to facilitate the completion of various projects

Oct 2023 – May 2024 **ADVANCED SOLAR PRODUCTS** Fleming, NJ
Engineering & Business Development Intern

- Develop layouts and installation plans for photovoltaic systems in a large variety of environments
- Researched and evaluated 3D/photovoltaic design software for integration into company workflow
- Optimized installation plans and prepared detailed project documentation in a multidisciplinary team

May – Aug 2023 **PASSAIC VALLEY SEWERAGE COMMISSION (PVSC)** Newark, NJ
Engineering Team Intern

- Created technical drawing to record facility renovation, including detailed pump-stations and conduit routing
- Experience in the standards of large-scale mechanical, plumbing, electrical, and civil engineering
- Shadowed and assisted a project engineer in daily operations

May – Aug 2022 **TRIANGLE MANUFACTURING** Upper Saddle River, NJ
Engineering Team Intern

- Worked closely with Manufacturing Engineers to produce high-precision medical implants
- Led projects in fixture design, inspection plan creation, and process audits
- Gained experience in running and programming of 5-axis mills, Vicivision, and CMMS

RELEVANT PROJECTS

- ME598/650 – Introduction to Robotics & Robotic Manipulators
  Design & Simulation of various robotics systems, including articulated manipulators, parallel robots, and integrated image processing
- ME423 – Senior Design
  Team Lead for a team creating an upscaled intravascular robot prototype for surgical applications (https://www.intravascularbot.com/)

OTHER

- Technical Skills: C++, MATLAB, Excel, CAD, Process Simulation, Rapid Prototyping
- Certifications: MATLAB Simulink, OSHA 10 Certification
- Volunteering: Managed Database at Covid-19 Injection Cite
